### BENEFITS

---

## PRECISE DOSAGE. PRECISE CARE

Too little detergent can compromise your clean result, while too much can cause premature fabric wear and tear. AEG AutoDose removes the guesswork by automatically dispensing the precise detergent dosage. Intelligent sensors inside the machine weigh each load, identifying the optimal measure of detergent and softener for the cycle. Wear your clothes for longer and may help to reduce up to 60% less detergent for a 2 kg load\* with AutoDose. \*According to an internal test method for the amount of detergent used for a 2kg load with AutoDose vs an average manual dose.

## BOOST YOUR WASHING PERFORMANCE

PowerCare uses an advanced technique to premix and activate detergent for improved detergent efficacy, ensuring every fibre is reached, even at 30C. Delivers outstanding washing results in less than one hour.

---

## WHY WASH WHEN YOU CAN STEAM

AEG ProSteam technology refreshes clothes so they are ready to wear in just 25 minutes. ProSteam efficiently reduces odours\* and reduces creases in dry fabrics. A gentle steam cycle requires minimal to no ironing. \*External test shows substantial reduction of cigarette smoke odour and kitchen odour in a Steam Refresh cycle by Laboratorio Olfattometria Dinamica in 2021 (Test Report No. LOD\_RT\_1070-21).

## SAVE WATER, ENERGY, AND TIME

PreciseWash automatically adapts the energy usage and settings depending on the weight of the laundry load. For customised laundry cycles that reduce energy, time and water usage when washing smaller loads\*. \*Internal test for time, water and energy consumption of a 30C Cotton cycle optimized with PreciseWash.

---

## REMOVES BACTERIA AND VIRUSES\*

Select Hygiene cycle for an ultra-clean Swisstatest-certified washing performance. The temperature above 60C removes 99.99% of common bacteria and viruses\* and reduces some allergens. Ideal for thoroughly clean clothing, bedlinen, quilts, and pillows. \*Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstatest Testmaterialien AG in 2021 (Test Report No. 202120117)

## GREEN-FRIENDLY WOOL CARE

Why hand wash when you can machine wash woollens with confidence. Woolmark Green certification ensures safe, gentle machine washing, while satisfying the Woolmark Green Certifications high levels of water and energy efficiency.
