9kg 8000 Series Heat pump dryer. With an 9kg capacity and a huge range of features, you will enjoy exceptional results every time. 3D-Scan technology scans deep into fabrics to measure humidity and moisture, and automatically adjusts the settings and time to deliver precise, even drying. Woolmark Blue certified so you can dry with confidence. AEG Connected allows for smart & easy care via your connected devices.

Product Details

FEATURES

3DScan
3D-Scan technology ensures expert protection and precise drying, from delicates to duvets.

AEGConnected
Connected and customised drying made easy and smart with the AEG App.

Anticrease
Anticrease technology dries your clothes evenly, reducing creases and wrinkles.

Fits perfectly with AEG washers and dryers

MixDry
No sorting. Less effort. Dry cottons and synthetics together with MixDry.

Hygiene
The Hygiene cycle eliminates more than 99.9% of common bacteria and viruses* while drying.Tested for Escherichia coli ATCC 11229,Candida albicans ATCC 10231, MS2 Bacteriophage DSM 13767 in external test performed by Swissatest Testmaterialien AG in 2021 (Test Report No. 20212038).

Woolmark Blue
Woolmark Blue-certified AEG dryers give you the confidence to machine dry woollens.

AbsoluteCare
Customised AbsoluteCare drying for wool, silk and outdoor garments.

BENEFITS

3DScan Technology. Precision drying
3DScan Technology means that clothes are dried with precision and care. Confidently dry wool, silks, outdoor wear, shirts, trousers and even down jackets. Experience exceptional drying precision.

REMOVES BACTERIA AND VIRUSES*
The Swissatest-certified Hygiene cycle runs above 60C, sanitising items to remove up to 99.9% of common bacteria and viruses* ideal for drying bedlinen, duvets, and pillows. *Tested for Escherichia coli ATCC 11229,Candida albicans ATCC 10231,MS2 Bacteriophage DSM 13767 in external test performed by Swissatest Testmaterialien AG in 2021 (Test Report No. 20212038).

Precise protection for your clothes
Programs in our unique AbsoluteCare System precisely control the movement and temperature of the drying drum. Woollens are kept flat against the drum to replicate flat drying. Silks are held aloft in the cradle movement of the drum to protect from damage. Every fabric gets the right drum action and temperature to dry it completely whilst preserving their quality look and feel.

SensiDry Technology
SensiDry heat pump technology dries with low temperatures and uses precise sensors to monitor the drying cycle. This ensures that fabrics are never subject to unnecessary heat meaning your clothes will keep the textures they had for longer.

DRY WOOLLENS WITH CONFIDENCE
The Woolmark Blue certification in drying will treat each item in the gentlest possible manner, meaning you can safely dry all of your hand wash woollen garments.

WHY SORT WHEN YOU CAN MIX
MixDry thoroughly dries synthetic and cotton garments together, for effortless, mixed load drying without the need for sorting. Heat pump technology ensures fabrics receive an even amount of heat, to optimise energy consumption and prevent over- or under-drying.

A PERFECT MATCH
Pair an AEG washing machine and dryer to achieve exceptional results and expert fabric care, from washing to drying. Compatible appliance function and aligned design create a seamless laundry experience, whether stacked or installed side by side.

CREASE-LESS DRYING
With Anticrease technology, the AEG tumble dryer allows the drum to rotate clockwise and anti-clockwise at the end of the drying cycle, which helps clothes to dry more evenly and reduces creases.

CONNECTED TO YOUR LIFE
Use the AEG App to personalise settings and receive smart tips and suggestions. Customise laundry cycles and send instructions to your appliance to adapt it to your needs and habits. Smart and easy care via your connected devices.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Dryer Type	heat pump
Design family (eline)	Ruby
Capacity (Kg)	9
Wall mount option	no

DIMENSIONS

Total height (mm)	850
Total width (mm)	600
Total depth (mm)	663

ENERGY

Energy Efficiency Star Rating	9
Energy Consumption (KWhr/yr)	129

CONTROLS

Type of controls	electronic rotary,Touch button
Options available	delay start,crease free option,internal drum light,auto sensing,timer drying,reverse tumbling action,Reversible control panel
Type of display	LCD
Fabric type selection	cotton,synthetics,wool,silk

BUTTON FUNCTIONS

DRYING PROGRAMS

BUTTON FUNCTIONS

Reminder/ Indicators	clean lint filter reminder,empty water container,buzzer,time remaining,program duration,time dry,child lock,drying,degree of dryness,anti crease,Eco,Dryness
