SMART SENSORS, OPTIMAL RESULTS

No more boil-overs or burnt food. With SenseBoil & Fry, smart sensors intuitively lower the cooktops heat, preventing your pot from boiling over or your fried food from burning for even and consistent results

EXPAND YOUR COOKING SPACE

Need extra space? The Bridge function combines two zones into one larger surface, balancing heat and timing automatically. Its ideal for planchas, grill plates, or large roasting pots.

The hoods fan speed adjusts automatically while you cook, keeping the air clean and fresh so you can focus on your favourite dishes.
