

# 76cm Series 9 Professional Built-in Coffee Maker

Series 9 | Professional

Stainless Steel

Our Built-in Coffee Maker pours a delicious coffee, however you take it. Pairs perfectly with 76cm ovens and companion products.

- Barista-standard coffee just the way you like it, with 13 options from Flat White to Long Black
- Your favourite coffee can be memorised and set to start at the same time each day, so it is ready when you are
- With self-cleaning function for an effortless clean

- Part of our suite of companion products, designed for cohesive pairing and flexible configuration options

## DIMENSIONS

Height	470 mm
Width	757 mm
Depth	499 mm

## FEATURES & BENEFITS

### Coffee Choice

Your Coffee Maker has 13 different choices to suit your taste and selection – from Espresso to Flat White, Latte and more.

### Self-Cleaning

The Coffee Maker includes a self-cleaning function, and comes with a removable drip tray and a waste container for used coffee grounds.

### Complementary Design

With a premium stainless-steel finish, this Coffee Maker is a part of the Professional style family of appliances.

### Personalise Your Cup

Program an automatic setting to start up at the same time each day and memorise your favourite coffee. Twin LED lights illuminate your beverages so you can see what you're doing on those dark mornings.

### Sized To Suit

This Built-in Coffee Maker pairs perfectly with other companion products. Install at any height and with multiple configuration options to suit your kitchen design and preference.

## Barista-Style Coffee

The conical burr grinder delivers a consistent grind for the perfect coffee. Set it to suit your preference.

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
