KEY FEATURES

Onboard Green Energy Brushless Motor

Onboard brushless motors provide enhanced durability, efficiency, and reduced maintenance due to their frictionless design. Paired with green energy you still experience exceptional power and pressure with excellent flow levels and but with additional sound reduction.

4 Speed Settings

Sirius Rangehoods offer 4 speed settings. Levels 1 to 3 for light to normal cooking and level 4 for smoky or intense cooking. Covering all your cooking needs.

Recirculated Option

With this rangehood, you have the option of ducting out to an exit or recirculating. The difference between these two is that recirculation means the air passes through a filter and recirculates back inside whereas ducted means the air exhausted to outside.

Cooking Functions

Easy to use induction cooktop with over 9 functions including Chef Cook which lets you melt, warm or simmer at the touch of a button, along with power boost, pause and recall functions. Also comes with automatic switch-off when the appliance hasn't been touched in 4hrs.

Induction Technology

Induction cooktops offer fast, energy-efficient cooking by directly heating the cookware while keeping the surface cool, ensuring safety, precision, and easy cleaning.

Powerful Extraction

With a maximum airflow of 800M3/H, this rangehood quickly and effectively removes smoke, steam, heat, odours, and other airborne particles from areas requiring ventilation.

Touch Control

The rangehood and cooktop are equipped with a sophisticated touch controls designed to be simple and intuitive to use. Including an integrated timer, child safety lock and bright white LED lights guide you across the controls.

Handcrafted in Italy

Sirius Rangehoods, a prestigious Italian brand founded in 1996, is renowned for its bold designs and commitment to premium materials and craftsmanship, making it a top choice for high-end rangehoods.

*Please note that noise level is subject to installation and surrounding materials.

[^]As the product is manufactured in Italy, ratings are based on European directive 65/2014 regulations.
